"QUALITY IS TRUE ECONOMY"

It is hardly necessary to mention the word **Quality** in connection with Coolidge stock, as our many good friends who place their orders with us year after year are our best testimony in this respect. You may therefore feel assured that any plants you purchase from us will be fully up to your expectations and entirely satisfactory to your customers.

We have now secured additional acreage for growing grounds in our immediate vicinity which will result in a substantial increase in our Wholesale Stock to serve your complete requirements.

TERMS:—30 days. or 2% for Cash on delivery.

WE ARE A PINTO TAG NURSERY

If convenient, do not order less than 15 of any one variety in lining out sizes, not less than 10 in one gallon cans, and not less than 5 in five gallon cans. Also note that it is not profitable for us to ship by Freight or Express or Truck Delivery any orders totaling less than \$20.00. Please advise which method of shipping you prefer.

This list cancels all previous issues. Prices subject to change without notice.

Non-Warranty—We give no warranty, expressed or implied, as to the productivity or variety of the plants we sell and we will not in any way be responsible for the crop, or for any delay or any failure in delivery through any and all causes beyond our control. Our liability in all instances is limited to the purchase price of the plants. Orders accepted only on these conditions.

CAMELLIAS

3" Pot .35	1 Gallon Unbudded 1.00	1 Gallon Budded 1.20	5 Gallon 1 year 2.95	5 Gallon Budded 3.50
---------------	------------------------------	----------------------------	----------------------------	----------------------------

†Indicates Camellias also available in 3" pot size.

ALBA PLENA—One of the best. Snow-white, large formal double chif-fon-like flowers. Slow, bushy growth. Blooms early to midseason.

BREAK OF DAY—Coral Pink. Large, peony to anemone form. Vigorous, open, upright growth.

BRIDE'S BOUQUET—White. Very large, semi-double with fluted and notched petals. Medium, open growth. New.

CHANDLERI ELEGANS—(Francine) Rose pink. Very large anemone form. Medium, spreading growth. Blooms early to midseason.

CHANDLERI ELEGANS VARIEGATED—4½ to 5" flowers, anemone form of soft rose variegated irregularly in white. Profuse bloomer and vigorous spreading growth. Particularly adapted to espaliering. Blooms midseason.

CHARLOTTE BRADFORD—Sport of Mrs. Baldwin Wood—Phlox Pink variegated White in varied degrees. New.

C. M. WILSON—Light pink sport of Chandleri Elegans Varieg. Very beautiful. Medium, spreading growth. Blooms midseason.

COL. FIREY—(C. M. Hovey) Dark red, 4 to 5" flowers. Large formal double. Medium, slender, upright growth. Blooms midseason to late.

†**DAIKAGURA**—Bright rose pink splotched white. Large peony form. One of first Fall bloomers. Slow, compact growth.

DEBUTANTE—Large, full peony form flowers of dainty shell pink.

ELIZABETH LE BEY—Light Rose Pink. Large, hemispherical full peony form with large petals and stamens intermixed among large, erect petaloides. Vigorous, pendulous growth. New.

EMPEROR WILHELM—(Gigantea) Red, marble white. Very large semi-double to rose form double, anemone to peony form. Vigorous, upright growth. Blooms midseason.

FIMBRIATA—(Alba Plena Fimbriata) Blooms identical to Alba Plena with the exception of the petals, which are fringed on the edges. Bushy, spreading growth. Blooms early to midseason.

FINLANDIA—Large, semi-double with swirled and fluted petals surrounding showy, golden stamens. Compact growth. Blooms early to midseason.

FINLANDIA VARIEGATED—(Margaret Jack) Large semi-double with swirled and fluted petals, white streaked with crimson. Medium, compact growth. Blooms midseason to late.

CAMELLIAS

FIRE FALLS—Glowing Crimson. Large, formal double with ruffled petals. Vigorous, open, upright growth. New.

†**FROSTY MORN**—White. Large, anemone form. Medium, open growth. New.

GENERAL PATTON—(Pink Purity) Glowing pink, large, rose form double with petaloids in center. Vigorous, upright growth. Blooms early to midseason.

GLEN 40—Clear Flame-coral. Large formal to rose form double. Slow, compact, upright growth. Blooms midseason to late.

†**HIGH HAT**—(Pink Daikagura) Large full double in softest pink daintily shadowed in white. Has high center of frilled petaloids. One of the earliest bloomers.

JORDAN'S PRIDE—(Herme) Pink petals with irregular white border, streaked deep pink. Large semi-double. Vigorous, upright growth. Blooms midseason.

†**JOSHUA YOUTZ**—(White Daikagura) Flowers are pure white, full peony form, double and larger than its parent Daikagura. Long flowering. Slow, compact growth. Blooms early to late.

KUMASAKA—A large fluffy double of glowing pink. Heavy bloomer. Vigorous, compact growth. Blooms midseason to late.

LAUREL LEAF—(Lallarook) Formal double of soft rose, marbled white. Medium, upright, compact growth. Blooms midseason to late.

†**LOTUS**—Largest of the semi-double whites. Exquisite form reveals spectacular golden stamens. Profuse bloomer, midseason.

†**MAGNOLIAEFLORA**—Light blush pink. Medium semi-double to anemone form. Medium, compact growth. Blooms early to midseason.

MARJORIE MAGNIFICENT—Medium semi-double to peony form in deep blush pink. Medium, compact growth. Blooms early to midseason.

MARTHA BRICE—Very beautiful light pink. Semi-double to anemone form. Medium, spreading growth. Blooms midseason.

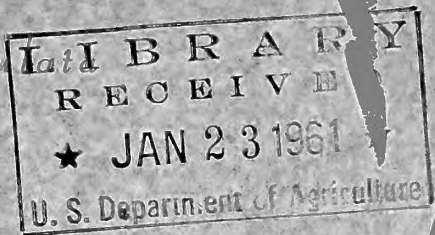

MASTERPIECE—White, opening from Blush bud. Large, high, centered formal double to rose form double. Vigorous, open, upright growth. Very large foliage.

MATHOTIANA—(Julia Drayton) Rose red. Very large rose form to formal growth. Blooms midseason to late.

MME. M. CALASANT PINK—Pastel pink. Large, irregular, semi-double with creped petals. Medium, upright growth. Blooms early to midseason.

CAMELLIAS

Japanica
Sasanqua
and
Reticulata

COOLIDGE GARDENS

CAMELLIAS

The Camellias are recognized as outstanding, not alone for their great beauty of blossom and foliage, but for their hardiness and simplicity of culture.

There are the appealing singles with their large petals symmetrically arranged around showy yellow stamens, semi-doubles and full doubles either of the peony or formal flat type. The color scale ranges from the purest white through many shades of pink and red, and an infinite number of variegations. There is a type for every conceivable taste. We are interested, primarily, in the best varieties, and are constantly adding to our already select stock through collection and hybridization.

A location on the north or east side of a building, or any semi-shady position protected from the mid-day and afternoon sun should be selected; and do remember that good drainage is of first importance. The required acid condition can be supplied when planting by mixing one-third each of peat, well rotted leafmold and good sandy loam. Fertilize about the last weeks of April, June and August with a balanced acid food specially prepared for camellias or four light feedings of cottonseed meal (work it in lightly as the roots are near the surface).

Flowering of the different varieties begins in October and continues to the end of April. As a cut flower, the Camellia is a worthy rival of the Orchid, and, as a decorative evergreen which may be depended upon for luxuriant foliage throughout the year, it is unsurpassed.

From early October through April, the numerous varieties offer a continuous and ever changing pageant of thousands of blossoms. You may feel free to come in and enjoy them at any time.

Prices according to size and variety.

The newer and rarer varieties are marked with an asterisk*. Period of bloom indicated as follows:

E.—early (Oct.-Nov.)

M.—midseason (Dec.-Feb.)

L.—late (March-April)

They are hardy and, here in Southern California, the colder the winter the better they bloom. They came unscathed through the 1949 record-breaking freeze.

CAMELLIA JAPONICA

white

ALBA PLENA—One of the best. Snow-white, large formal double chiffon-like flowers. Slow, bushy growth. E.M.

***BRIDE'S BOUQUET**—Very large, semi-double with fluted and notched petals. Medium, open growth. M.L.

***CORONATION**—White, very large semi-double; vigorous open spreading growth. New. M.

***EMMETT BARNES**—Large, semi-double to loose peony form with ruffled petals and stamens intermixed. Vigorous, compact growth. M.

FIMBRIATA—(Alba Plena Fimbriata) Blooms identical with Alba Plena with the exception of the petals, which are fringed on the edges. Bushy, spreading growth. E.M.

FINLANDIA—Large, semi-double with swirled and fluted petals surrounding showy, golden stamens. Compact growth. E.M.

***FROSTY MORN**—Very large, anemone to peony form with golden stamens. Beautiful slightly twisted foliage. Medium, open, upright growth. M.L.

***HAKU TSURU**—(White Crane) Large single to semi-double with rounded petals. Vigorous, upright growth. M.

JOSHUA YOUTZ—(White Daikagura) Flowers are pure white, full peony form, double and larger than its parent, the Daikagura. Long flowering. Slow, compact growth. E.L.

***MASTERPIECE**—Pure white, 4½ to 5" blooms. Formal double to rose form, high centered flowers. Foliage unusually large. Vigorous growth. E.M.

***MORNING GLOW**—White, large formal double; vigorous upright growth. New. E.M.

PURITY—Pure white, medium formal double. Unusually large flowers in abundance. Vigorous, upright growth. L.

***SHIRO CHAN**—Beautiful white sport of C. M. Wilson. Sometimes shows blush pink at the base of the petals. Same habit of growth and blooming season as its parent. E.M.

variegated

***BARBARA WOODRUFF**—Sport of Chandleri; light Orchid Pink outer petals, cream white center, occasional pink petaloid. New. M.

CHANDLERI ELEGANS VARIEG.—4½ to 5" flowers, anemone form of soft rose variegated irregularly in white. Profuse bloomer and vigorous spreading growth, particularly adapted to espalliering. M.

DAIKAGURA—Bright rose pink splotched white. Large peony form. One of first Fall bloomers. Slow, compact growth. E.M.

EMPEROR FREDERICK WILHELM—(Gigantea) Red, marbled white. Very large semi-double to rose form double, anemone to peony form. Vigorous, upright growth. M.

FINLANDIA VARIEG.—(Margaret Jack) Large semi-double with swirled and fluted petals, white streaked with crimson. Medium, compact growth. M.L.

GLEN 40 VARIEG.—Deep orange-red blotched white. Formal to rose form double. Slow, compact, upright growth. M.L.

HERME—(Jordan's Pride) Pink petals with irregular white border and streaked deep pink. Large, semi-double. Vigorous, upright growth. M.

***LADY KAY**—Fimbriated peoniform sport of Ville de Nantes with growing and blooming period same as parent. Red, mottled white. M.

LALLAROOK—(Laurel Leaf) Formal, double of soft rose marbled white. Medium, upright, compact growth. M.L.

***PINK CLOUDS**—(Hertrich Award 1952-53) Creamy pink marked with deeper pink, changing to light lavender pink as flower ages. Very large, anemone form. Vigorous, bushy growth. M.

***REG RAGLAND**—(Hertrich Award 1954, John Illge Award 1956) Very large semi-double with smaller upright center petals, red marbled white. Very showy. Compact, upright growth. M.L.

VILLE de NANTES—Dark red blotched white. Large irregular, semi-double, fimbriated petals. Slow, bushy growth. M.

pink

***ALICE MORRISON**—Light shell pink, medium semi-double; compact upright growth. New. M.

***BILLIE McCASKILL**—Shaded soft pink, medium semi-double, with deeply fimbriated petals; vigorous compact upright growth. New. E.M.

***BREAK O' DAY**—Light coral pink; large; vigorous open upright growth. New. E.L.

CHANDLERI ELEGANS PINK—(Francine) Rose pink. Very large anemone form. Medium, spreading growth. E.M.

***C. M. WILSON**—(Grace Burkhard) Light pink sport of Chandleri Elegans Varieg. Very beautiful. Medium, spreading growth. M.

DEBUTANTE—Large, full peony form flowers of dainty shell pink. One of choicest of all Camellias. Vigorous, upright growth. E.M.

***DONATION**—Saluenensis x Japonica hybrid. Deep pink, large semi-double. Prolific bloomer. Medium, upright growth. M.

***DRAMA GIRL**—Very large, 5½ to 6", semi-double to anemone form blooms of deep salmon-rose pink. Vigorous, upright growth with large, dark green foliage. M.L.

***NINA AVERY**—Pale pink with white stamens tipped light brown. Medium to large semi-double to peony form with crinkled, erect center petals. Vigorous, upright, compact growth. M.

***PEARL MAXWELL**—A beautiful large formal double of soft shell pink. Vigorous, compact growth. M.L.

***PINK LOTUS**—Pink, medium large, semi-double. New. M.

PINK PERFECTION—Shell pink. Medium formal double. Vigorous upright growth. Flowers early and again late winter.

***SEVENTH HEAVEN**—Beautiful clear lavender-pink. Large, full semi-double with wide petals and small petaloids in center. Vigorous, open, upright growth. M.

***SPECIAL TRIBUTE**—Medium to large, formal, soft light pink. Medium open growth. New. M.L.

***SPRING SONNET**—Pale pink semi-double with deeper pink margin. Sport of Herme. Vigorous, upright growth. M.

*SPRING TRIUMPH—Deep coral pink. Large full peony form. Lasting flowers. Medium, open growth. M.

*SUNSET GLORY—Coral rose. Large anemone form with long guard petals. Vigorous, open, upright growth. M.

*SWEETHEART—Soft apricot pink, formal, occasionally marbled white, double; upright growth, bushy. New. E.M. (All America selection).

r e d

C. M. HOVEY—(Col. Firey) Dark red, 4 to 5" flowers. Large, formal double. Medium, slender, upright growth. M.L.

COVINA—Rose red. Medium, semi-double to rose form double. Blooms freely over a long period. Vigorous, bushy growth. M.

*FIRE FALLS—Glowing crimson. Large full double to semi-peony. Vigorous, open, upright growth. M.

*FRENCH EMPEROR—Very dark regal red. Very large, full peony form. Medium, upright, open growth. M.

GLEN 40—Clear flame-coral. Large formal to rose form double. Slow, compact, upright growth. M.L.

MATHOTIANA—(Julia Drayton) Rose red. Very large rose form to formal double. Exceptionally beautiful. Large foliage. Vigorous, compact growth. M.L.

*MATHOTIANA SUPREME—Mathotiana Sport; large semi-double to rose form. New. M.L.

*PAULETTE GODDARD—Dark red. Very large, semi-double, loose peony form to anemone form. Vigorous, upright growth. M.L.

POPE PIUS IX—Rich orange-red. Large formal double. A free bloomer. Medium, compact, upright growth. M.

PROF. CHAS. S. SARGENT—Dark red. Medium, full peony form. Vigorous, compact, upright growth. M.

*SULTANA—Mathotiana Sport; Scarlet, semi-double to peony form. New. M.L.

*TOMORROW—Strawberry red. Large to very large, irregular semi-double with large petaloids. Vigorous, open, slightly pendulous growth. E.M.

CAMELLIA SASANQUA

During the past few years their many excellent qualities and variety of uses have attracted the increasing appreciation of camellia enthusiasts throughout the country.

They are informal both in blossom and habit of growth. Their single and semi-double flowers possess the fragrance as well as the appearance of the wild rose and the loose-branched, semi-trailing habit of several of the varieties makes them particularly adaptable as a ground cover or for espalier treatment on trellis or wall. Their cultural requirements are the same as for other camellias.

PEARL ROSE—Soft, clear pink single. Compact growth. E.M.

FLAVIN—(Akabono) Single ivory white with blush pink at the margins of petals. Upright and compact growth. E.M.

HIDE—Exquisite single deep rose-pink. Profuse bloomer. Vigorous, upright compact growth. E.M.

HIYU—(Red Bird) (Flying Dragon) Deep crimson red rose-form double. Long lasting. Vigorous, upright, compact growth. E.M.

***JEAN MAY**—Beautiful, large, shell-pink double flowers. Glossy foliage. Upright, compact growth. E.M.

***JEROME**—Deep rose pink, with Chandleri like form. Outstanding. Upright habit of growth. New. E.

***LAVENDER QUEEN**—Very large, lavender-pink single. Vigorous, spreading growth. E.M.

***LITTLE GEM**—(Ko-Gyoku) Pink bud opening pinkish white. Rose form double. Upright, compact growth. E.M.

NARUMI-GATA—(Oleifera) White, shaded pink. Very large single. Vigorous, compact, upright growth. E.M.

NODAMI-ISHIRO—Unusual large deep pink. Semi-double. Vigorous, compact growth. E.M.

***PINK SNOW**—A clear light pink; large semi-double; low spreading growth. New. E.

ROSE—Large single rose pink. Vigorous growth. E.

***SCHICHI-FUKUTSU**—(Good Fortune) Very large single to semi-double. Clear, soft pink, edged with lighter pink crinkled petals. Upright, bushy growth. E.M.

YAMASHI GAKU—Semi-double bright rose-red, imbricated. Compact growth. E.

YOMAKI-BAKAR—(Hiemalis—Winter flowering Sasanqua) Soft pink, occasionally marbled white. Medium large, semi-double to rose form double. Slow, low and compact growth. E.M.

SPARKLING BURBUNDY—Huge double ruby-rose; vigorous upright compact growth. New. E.

TAKYU—(The title of a drama) Beautiful, single deep rose pink. Weeping, compact growth. E.M.

***VELVET**—Large single, deep rose-red with velvety overcast. Upright, bushy growth. E.

***WHITE FRILLS**—Low grower; large frilly white blossoms. New. E.

WHITE DOWNS—(Mine-no-Yuki) Feathery semi-double, snow-white flowers. Vigorous, spreading growth. E.M.

YUKI-ARARE—Beautiful, large single white edged with pink. Vigorous, bushy, upright growth. E.M.

THE FAMOUS KUNMING RETICULATAS

This group of Camellias is known as the Yunnan or Kunming Reticulatas. The plants are entirely new in character and beauty from the Japonicas with which we are familiar.

They were imported after innumerable restrictions had been removed, gaining entrance to the United States during the years 1948-1950, and are now ready in limited quantities for your garden interest.

They will respond to the same general care as the Japonicas and will surprise you with their gorgeous five to seven inch flowers in varying shades of lavender pink and crimson, in wide petaled and artistic arrangement.

Ask to see the color chart of this group.

*BUBBLE--Rose pink. Very large, irregular semi-double with erect wavy petals. Vigorous, upright growth. M.

*BUTTERFLY WINGS--Very large (6") irregular, semi-double broad petals resembling butterfly wings. Rose pink. Slender, open growth. M.L.

*CATHARTIC--Brilliant pink. Very large, wavy, fluted petals. Semi-double. Large serrated foliage with bronze new growth. M.

*CELANES TEMPLE--Large, irregular, peony form. Pink, variegated white. Vigorous, compact growth. M.L.

*CHRISTIAN ROSE--Very large semi-double. Carmine red with crinkled petals. Large foliage. Upright, bushy growth. M.L.

*LIONS HEAD--Very large, semi-double, deep red with each petal heavily variegated white. Vigorous, compact growth. M.L.

*CONVULSUS LEAF--Medium, rose form double. Orchid pink. Small foliage. Vigorous, slender, open growth. M.L.

*FROG TAIL--Medium semi-double with undulate petals. Rose pink. Open, spreading growth. M.L.

*PURPLE DOWN--Very large (5 to 7") formal to peony form. Beautiful, deep purplish-red with white variegations. Slow, compact growth. M.

*SILVER SLIP--Large brilliant pink semi-double with wavy petals. Vigorous, upright, compact growth. M.

*TALL QUEEN--Very large (6") semi-double. Deep pink with white variegations. Slow, compact growth. M.L.

*WILLOW WAND--Large semi-double. Orchid pink with wavy petals. Narrow leaves. Vigorous, upright growth. M.L.

Look upon the distinctive certain varieties and sub-
affinity superior strains; therefore, maintaining a
selected group of the finest available in the stand-
ing varieties and the best of the recent introduc-
tions.

CAMELLIAS

PINK CLOUDS—Cream Pink and marked deeper Pink changing to light Lavender Pink as flower ages. Very large, anemone form. Vigorous, bushy growth. New.

PINK PERFECTION—Shell pink. Medium formal double. Vigorous, upright growth. Blooms early and again late.

PURITY—Pure white, medium formal double. Unusually large flowers in abundance. Vigorous, upright growth. Blooms late.

SEVENTH HEAVEN—Light Rose Pink. Large, full semi-double with wide petals and small petaloids in center. Vigorous, open, upright growth. New.

SPRING SONNET—Pale pink semi-double with deeper pink margin. Vigorous, upright growth. Blooms midseason.

SPRING TRIUMPH—Deep Coral Pink. Large, full peony form. Medium, open growth. New.

SUNSET GLORY—Coral Pink. Large, anemone form with long guard petals. Vigorous, open, upright growth. New.

†**VILLE DE NANTES**—Dark red, blotched with white. Large, irregular, semi-double, fimbriated petals. Slow, bushy growth. Blooms midseason.

AZALEAS

No flowers more beautifully exemplify the Spirit of the Spring than the Azaleas. In Southern California we find four evergreen varieties that thrive and offer the ultimate in charm and color: the Indicas, Kurumes, Rutherfordianas and Indica-Macranthas. All through the months of March, April and May they present an unforgettable pageant of bloom.

The gorgeous Indicas, with their large spectacular blossoms and habit of intermittent bloom throughout the year, leave little to be desired.

The Kurumes comprise a most diversified collection, and their mass bloom is most effective. You must see them in bloom to fully appreciate their beauty, attractiveness and suitability for practically all purposes.

Last, but not least, the Indica-Macranthas, or early summer flowering Azaleas, with their oriental habit of growth and sparkling flowers.

Many and varied are the uses to which Azaleas may be put: pick them freely for decoration throughout your rooms, use them for favors or wear them as corsages. Their lasting qualities are remarkable. Too, they display charming individuality as pot plants for the house or patio.

We have specialized in Azaleas for many years and now offer a unique selection of the finest varieties and latest introductions.

The varieties mentioned herein represent only a very limited number of our extensive collection.

Azalea Culture

Azaleas require an acid soil condition. Do not add leaf-mold or soil. Dig a hole one-fourth wider than the container and two inches deeper, to insure ample room for an expanding root system, and fill with European peat **thoroughly moistened**. They must have good drainage. In the event of heavy or adobe soil, dig a hole at least twice the depth of the container and fill with stones or coarse gravel up to the level of the peat. No matter what type of soil, do not put more than two inches of peat under the peat ball as taken from the pot. Set them on level with adjacent soil.

It is desirable to reset your Azaleas in fresh peat when indicated by the condition of the plant; preferably just after the blooming season. Remove the broken down peat by hand or with a strong nozzle spray.

Top-dress lightly with a special Azalea acid food, and/or cotton-seed meal, three times after the blooming season (May 20, July 15 and September 1), and work it in to a depth of not more than $\frac{1}{4}$ inch, so as not to disturb the surface roots.

Azaleas enjoy a semi-shady location, such as that afforded by spreading trees or the north side of a house. Those marked (sun) are more adaptable to a sunny location than the others. None of the Azaleas have any objection to the morning sunlight. Most Azalea plants will also grow well in the sun, but the flowers will last longer and look better in a semi-shady location during the blooming season. Keep them reasonably moist, but avoid a boggy condition. Do not let them dry out at any time.

A well chosen selection will give consistent bloom from February through May. During the remainder of the year they make most attractive evergreens and are very hardy.
